+ PROJECT SIZE

22,000 SF

+ COMPONENTS

- Complete Demolition
- Ground-Up Construction
- Service Shop Renovation
- EV Charging Station Upgrade
- Parking Lot Improvements & Landscaping

+ PROJECT OVERVIEW

Harris Associates took part in the complete demolition of the existing showroom and development of a new showroom from the ground up. This project is an expansive 22,000 square foot automotive haven that will redefine your car buying experience. With the vision and experience of our team, this project makes a significant leap forward in automotive luxury and innovation. The owner has visionary plans to enhance both the Hyundai and Genesis dealerships, aligning with upgrades for electric vehicles and catering to an elevated clientele at Genesis. The existing service shop has been thoughtfully renovated to showcase state-of-the-art electric vehicle equipment, accompanied by a rejuvenated aesthetic. Select improvements to the parking lot will include EV charging stations, landscaping, asphalt, and stripping. Get ready to explore your luxury vehicle journey begins here.
