

SOUTHWEST SPECIALTY CONTRACTORS OFFICE BUILDING & WAREHOUSE

+ PROJECT DURATION

November 2018 – June 2019

+ PROJECT SIZE

36,276 SF

+ COMPONENTS

- Tilt-Up
- Ground up build of a 3 story 1st class office complex with warehouse

+ PROJECT OVERVIEW

Harris Associates was selected by Southwest Specialty Contractors to build their brand-new office building & warehouse in Las Vegas. The tilt-up project consisted of re-demising the existing commercial subdivision plot map allowing us to create a larger building footprint, all while coordinating underground utilities to be brought to the job site from $\frac{3}{4}$ of a mile down the road. This project was wrapped in eight months leaving both our team and the client very pleased with the finished product.
