+ PROJECT DURATION

December 2019 - January 2020

+ PROJECT SIZE

2,940 SQ FT

+ COMPONENTS

- Interior Remodel
- Custom Millwork & Glass Lockers
- Updated Lighting Package

+ PROJECT OVERVIEW

Harris Associates was selected for the remodel and rebranding of an existing restaurant into Wolfgang Puck Players Locker at Downtown Summerlin.

The project consisted of both interior and exterior enhancements to elevate the overall guest experience and brand identity.

Interior renovations feature a redesigned layout with new custom seating booths, upgraded lighting, and premium finishes throughout. A key design element includes the installation of 100 custom floor-to-ceiling millwork and glass display lockers, serving as a prominent focal point.

The remodel incorporates luxury finishes, refined detailing, and contemporary design elements throughout, transforming the existing space into a sophisticated, modern environment suitable for elevated dining and high-energy sports viewing.
