

Matthew Rodgers

VICE PRESIDENT OF CONSTRUCTION TECHNOLOGY

+ ABOUT

Matt brings over 22 years of BIM expertise, serving as the company virtual design and construction authority. As an Autodesk Certified Instructor for Revit, AutoCAD, 3ds Max, and Navisworks, he leads the implementation of cutting-edge technology across Harris's most complex hospitality, gaming, and commercial projects.

Matt's BIM capabilities span the full project lifecycle: coordination modeling, production documentation, energy analysis, design visualization, scheduling, cost estimating, and facilities management. He brings experience across architecture, structural engineering, MEP, and fire protection disciplines.

As an FAA Licensed Commercial Drone Pilot, he also provides aerial survey, photogrammetry, and site documentation services.
